

Our continuous qualitative growth is based upon the above-average competence of our team and the consequent use of the approved Ingenics method. To further upgrade our office in Shanghai, China we are looking for a:

› Lean Management Trainer

Your responsibilities:

- You manage sophisticated projects to increase efficiency and control change processes in close collaboration with our customers.
- You establish individual integral concepts for manufacturing companies based on the Lean-Philosophy.
- In this context you develop and design specific measures of improvement and subsequently actively implement them.
- You effectively participate in the design of integral training concepts for Lean transformation initiatives of our customers in China.
- You conduct workshops and training with enthusiasm and motivate the participants for objectives, ideas and necessary changes.
- You take on the orientation and training of new employees in the Lean area.

Your profile:

- You have graduated above average in engineering science specialising in production technology or comparable studies.
- Following several years of professional experience you possess strategic, conceptual and analytical skills.
- You are interested in other cultures and are mobile to attend to our national and international customer projects.
- You are open to extended stays abroad (>1 year) and direct employment in Shanghai and love exploring new avenues.

Should you be interested, please send your complete application to Ms. Nici Zhong, your contact person in Shanghai, China.
