

Our continuous qualitative growth is based upon the above average competence of our team and the consequent use of the approved Ingenics method. To further expand our presence in China, Ingenics is looking for a:

› Project Director

Your responsibilities:

- You are responsible for the acquisition of new customers and projects in China.
- You prepare offers for our customers based on tenders and as the result of personal meetings.
- You recognise needs and point out potentials to our customers, which Ingenics can unlock in projects.
- You are a competent contact person regarding all issues for our customers and employees within the project.
- You contribute to the implementation of our projects and ensure the expert- and economic success.

Your profile:

- You have completed your studies in industrial engineering and/or mechanical engineering and possess several years of professional experience, ideally in the sectors of factory planning and increasing efficiency in production / administration, as well as sales.
- Your strengths include the ability to communicate competently at all business levels.
- You have a deep founded interest in other cultures as well as a high level of mobility for our customer projects.
- You possess excellent written and spoken language skills in English and German, ideally also in Chinese.

Should you be interested, please send your complete application to Ms. Nici Zhong, your contact person in Shanghai, China.
