

Ingenics is a **leading consulting firm** that helps companies across a range of industries to achieve lean operational excellence. Our comprehensive approach covers all phases of a project: from initial planning to systems design, final implementation, and continuous improvement. Ingenics' key services can be defined as: planning, optimization and qualification with focus on three key business areas — factories, logistics and organization.

To further expand our project teams in **Shanghai** and **Shenyang**, we are looking for a:

› Senior Project Engineer Production Assembly Planning (m/f/d)

Your responsibilities:

- › Planning and realization of end-to-end concepts in manufacturing and assembly environments.
- › Identification of improvement potential in existing assembly processes and optimization of line-balancing for assembly lines.
- › Organize and implement existing or new tools, jigs, fixtures and equipment.
- › Development of assembly concepts to maximize the efficiency of manufacturing processes.
- › Preparing pricing schedules, preparing tender documents and evaluation matrices.
- › Assisting the customer in the selection of qualified suppliers.
- › Monitoring progress throughout the project implementation and comparing this with the projected schedule of work.
- › Managing sub-suppliers.
- › Supervising Installation and Commissioning of Equipment.
- › Acceptance Testing.
- › Training of Customer's employees.

Your profile:

- › Above-average Degree or Masters in Industrial Engineering, Mechanical Engineering or Manufacturing Technology and 3-5 years experience in manufacturing
- › Experience in process planning and efficiency improvement projects especially for automotive manufacturers, system and engine builders.
- › Experience in implementing Lean Production tools in international manufacturing companies
- › Excellent communication skills, including quick understanding and active listening, good team player
- › Ability to support our customers in complex project tasks as well as working in international project teams.
- › Good command of Chinese and English (knowledge of further languages especially German would be advantageous).
- › Based in Shanghai or Shenyang Office. Willingness for domestic and international travel over longer project durations is required.

Ingenics offers:

- › A modern, team-oriented working environment with many opportunities for personal development and further training on the job.
- › Due to the worldwide presence of our customers, you have the chance to gain knowledge and experience in international projects.
