

Ingenics is a **leading consulting firm** that helps companies across a range of industries to achieve lean operational excellence. Our comprehensive approach covers all phases of a project: from initial planning to systems design, final implementation, and continuous improvement. Ingenics' key services can be defined as: planning, optimization and qualification with focus on three key business areas — factories, logistics and organization.

To further expand our project team **in China**, we are looking for a:

› Senior Project Engineer – Industrial Engineering (m/f/d)

Your responsibilities:

- › Developing concepts to maximize the efficiency of manufacturing processes at Customer Plants.
- › Applying Lean Production methods/philosophies to existing and future manufacturing plants.
- › Applying Lean Logistics methods/philosophies to existing and future manufacturing plants.
- › Conducting Customer Trainings on all aspects of Lean Production.
- › Coaching and promoting the Lean Philosophy with our Customers.
- › Understanding and integrating Customer specific requirements.
- › Preparing and presenting status and results to Customers.
- › Achieving the project targets in line with Ingenics Quality Standards.

Your profile:

- › Degree or Masters in Industrial Engineering, Mechanical Engineering or Manufacturing Technology complemented by 3-5 years of professional relevant working experience in manufacturing.
- › Experience in process planning and efficiency improvement projects for automotive manufacturers and/or system and engine builders.
- › Hands on experience of Lean Production in international manufacturing companies.
- › Experience in the planning process and time management for industrial applications, plus deep founded knowledge in REFA and MTM methods is a plus.
- › Excellent communication and presentation skills, including quick understanding and active listening, good team player.
- › Ability to work independently with customers in complex project tasks as well as working in international project teams.
- › Excellent command of English and Chinese (knowledge of further languages especially German would be advantageous).
- › Based in Shanghai or Shenyang Office. Willingness for domestic and international travel over longer project durations is required.

Ingenics offers:

- › A modern, team-oriented working environment with many opportunities for personal development and further training on the job.
- › Due to the worldwide presence of our customers, you have the chance to gain knowledge and experience in international projects.
