

Ingenics is a **leading consulting firm** that helps companies across a range of industries to achieve lean operational excellence. Our comprehensive approach covers all phases of a project: from initial planning to systems design, final implementation, and continuous improvement. Ingenics' key services can be defined as: planning, optimization and qualification with focus on three key business areas — factories, logistics and organization.

To further expand our project team **in Mexico** we are looking for a:

› Assembly Project Engineer (m/f/d) (Pallet Style Chassis Marriage Expert)

Your responsibilities:

- › Responsible for pre-assembly of powertrain
- › Pre-charge of all components in marriage pallet
- › Modification on activities and coordinated with suppliers
- › Revision of the pallet for the marriage process and verification of operation
- › Support for start-up modification of the conveyors of different components installed in the plant.
- › In charge of bolting tools and tool support accessories (reaction arms) for marriage operations
- › Support for the start-up of the marriage screw driving equipment

Your profile:

- › Above average Engineer qualification specializing in Industrial, Mechanical or Mechatronic Engineering or a comparable degree and 3 or more years of professional experience, preferably in or for the automotive industry.
- › Assembly processes expertise for chassis and worked directly at any OEM or Tier I
- › Business Fluent in English required, German preferred.
- › Interest in other cultures and the corresponding mobility to enthusiastically take new paths for our national and international customer projects.

Ingenics offers:

- › A modern, team-oriented working environment with many opportunities for personal development and further training on the job.
- › Due to the worldwide presence of our customers, you have the chance to gain knowledge and experience in international projects.
