

Ingenics is a **leading consulting firm** that helps companies across a range of industries to achieve lean operational excellence. Our comprehensive approach covers all phases of a project: from initial planning to systems design, final implementation, and continuous improvement. Ingenics' key services can be defined as: planning, optimization and qualification with focus on three key business areas — factories, logistics and organization.

To further expand our project team **in Mexico** we are looking for a:

› Quality Project Manager (Seats and Interiors) (m/f/d)

Your responsibilities:

- › Development and planning of strategies based on the existing automation technology.
- › Working out on solution proposals with cost assessment and cost-benefit analysis.
- › Create and develop an action plan to solve problems and reach target.
- › Tracking and follow up LOP tool.
- › Testing, analysis, evaluation and results documentation.

Your profile:

- › Above average Engineer qualification specializing in Industrial, Mechanical or Mechatronic Engineering or a comparable degree.
- › 5 or more years of professional experience, preferably in or for the automotive industry.
- › Strong knowledge construction process of seats, plastics leather and fabric.
- › Diagnosis and certification of VDA 6.3 and IATF:16949.
- › Business Fluent in English required, German preferred.
- › Interest in other cultures and the corresponding mobility to enthusiastically take new paths for our national and international customer projects.

Ingenics offers:

- › A modern, team-oriented working environment with many opportunities for personal development and further training on the job.
- › Due to the worldwide presence of our customers, you have the chance to gain knowledge and experience in international projects.
